PROFESSIONAL SUMMARY

Software Application Engineer (Frontend Focus) with **2+ years of experience** building scalable, high-performance web applications using **Next.js, React, and TypeScript**.. Passionate about creating clean, maintainable code and impactful user experiences, while contributing across the stack with backend experience in **Node.js, Express, and NestJS.**

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, SQL
- **Frameworks & Libraries:** Next.js (App Router, Pages Router, SSR, SSG, API Routes), React, Express.js, NestJS
- **State Management & Forms:** Zustand, React Hook Form, React Query
- **UI & Styling:** Tailwind CSS, Shadcn/UI, Magic UI, Responsive Design
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Tools & Practices:** Postman, Apidog, Git (GitHub workflows), VS Code, Prisma
- **Testing & Deployment:** Vercel, VPS servers, Docker,

PROFESSIONAL EXPERIENCE

Cashkr – Frontend Engineer   *June 2023 – Oct 2025*
(Remote, Mumbai, India)   www.cashkr.com

- Developed and maintained a **scalable e-commerce platform** using **Next.js (App Router)** and TypeScript, serving thousands of users.

- Implemented **server-side rendering (SSR)**, **static site generation (SSG)**, and **Next.js API Routes** for secure and optimized web applications.

- Integrated secure **authentication (JWT, OAuth)** and **payment gateways**.

- Enhanced performance with **code splitting, efficient data fetching, image optimization (next/image)**, and static generation.

- Secured backend endpoints by configuring **server-side API calls**.

- Collaborated in an **agile environment**, participating in code reviews, sprint planning, and cross-functional discussions to ensure high-quality deliverables.

PROJECTS

Bhatbhatey   bhatbhatey.vercel.app

Vehicle rental platform focused on motorbike rentals.

- Built with **Next.js , TypeScript, Tailwind CSS**.

- Implemented **email/password authentication** and an **admin panel** for managing vehicle listings.

- **Optimized frontend performance** with **lazy loading, efficient data fetching, and responsive UI design**, improving page speed and user experience.

- **Designed a clean, mobile-first interface** with **Tailwind CSS** and reusable components, ensuring consistency and accessibility across devices.

Short It   short-it-theta.vercel.app

Full-stack **URL shortener** for creating and managing short links.

- Developed with **Next.js (frontend), Express.js (backend), MongoDB (database)**.

- Implemented **redirects, link tracking, and backend validations** to handle invalid URLs.

- Designed a **minimal, fast, and user-friendly UI**.

Public Predicts   publicpredicts.com

Community-based **event prediction platform** (under development).

- Built using **Next.js, TypeScript, Tailwind CSS, NestJS, PostgreSQL**.

- Implemented **JWT & OAuth (Google, Email/Password)** authentication.

- Developed **RESTful APIs** for events, options, and votes.

- Designed with a **scalable architecture** and clear separation of concerns.
